MATH 331: Optimization

MATH 232: Linear Algebra

MATH 397: Seminar in Mathematical Modeling

AIT Budapest: User Interface Design

Currently a third year at Oberlin College, pursuing a degree in Computer Science. I'm fast, detail oriented, and take pride in creating simple solutions with long term maintainability. Also, I'm self-motivated, friendly, and great at catering to customers' needs. I'm experienced working in teams on large-scale projects with strict deadlines, and enjoy pursuing independent projects with my free time.

Experience

Teacher's Assistant - Oberlin Computer Science Department (Spring 2016-Present)

-Assisted students with homework and labs for CSCI 151 (Data Structures), held weekly walk-in office hours

Waiter - SLA Thai

(June 2016-August 2016)

-Waited on customers at the winner of the 2016 New Jersey Critics' Choice award for Southeast Asian/Thai food

-Provided quick, detailed, friendly service to individual customers without neglecting attention to other patrons

-Received several positive reviews on Yelp, describing my service as "very friendly", "sweet and adorable", and "offering plenty of suggestions"

Equipment Assistant- Oberlin College AV Department (November 2014-Present)

-Assisted in distribution and retrieval of Audiovisual Equipment to and from students, faculty, and staff

-Assessed technical damage to equipment being checked in and out of inventory

-Provided technical support to customers

Activities

Asian American Alliance - Co-Chair

(Spring 2016- present)

-Corresponded with student, faculty, and staff belonging to the Asian community at Oberlin College

-Organized meetings, socials between students and faculty

-Collaborated with student organizations (at Oberlin College and other schools) on joint coalitions/programs
